## TENNESSEE WALKING HORSE

With a history deep in the roots of early-day America, the Tennessee Walking Horse is a proven performer. Gentle and intelligent, he is an ideal mount for the youngster. Strong, versatile and willing, he is also a ready-to-go horse for the experienced rider.

You'll find Tennessee Walking Horses across America thrilling the crowds in the show ring, providing an easy, smooth and fun ride along trails, working for his keep on farms and ranches, or just baby-sitting other children.

The Tennessee Walking Horse Breeders' and Exhibitors' Association was formed in 1935 to register horses and promote the breed. More than 170,000 horses have been registered, making walking horses one of the most popular light horse breeds in the world.

Thoroughly cooking foods of animal origin such as beef, eggs, fish, lamb, pork, poultry or shellfish reduces the risk of foodborne illness. Individuals with certain health conditions may be at higher risk if these foods are consumed raw or undercooked.
